With plenty of activities and projects, young readers gain a solid understanding of the matter they touch, see, feel, and experience every single day. As young readers discover the basic concepts and vocabulary of chemistry, they will experiment with household objects to discover how solids, liquids, and gases occupy space. Kids will dissolve solids into liquids and bring them back again, use salt and pepper to demonstrate water's surface tension, and fly helium-filled balloons to see what happens to molecules at different temperatures. Illustrated with cartoon illustrations and filled with fun facts, *Explore Solids and Liquids!* makes science entertaining and exciting. *Explore Solids and Liquids!* meets common core state standards in language arts for reading informational text and literary nonfiction and is aligned with Next Generation Science Standards.
